

Team ID	LTVIP2025TMID50251
Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

Screenshot of Story:

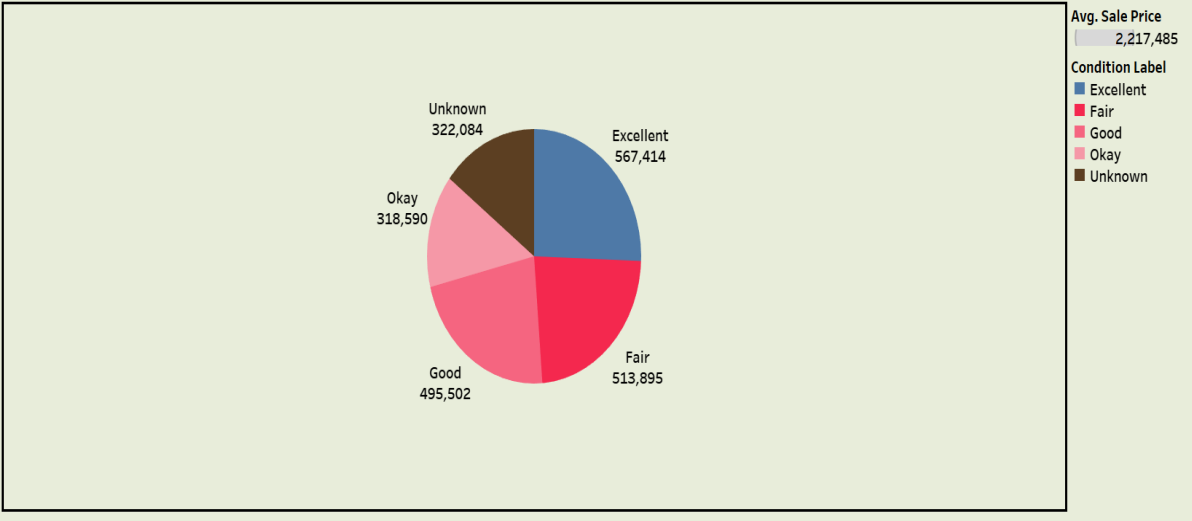

Decoding Real Estate Trends Through Data Visualization

- <

Shows the average sale price and number of bedrooms, two key factors influencing housing trends
- Displays sale price and floor distribution by property condition levels.
- Breakdown of average sale price by property condition
- Most homes are rated 'Fair' or 'Good.' These categories contribute the highest total sale prices.
